Dear Solomone,

Invitation to join Advisory Panel for the Oceania Renewable Power Summit

Freeman and Brightstar, organisers of New Zealand's premier and largest energy sector conference, Downstream, are excited to announce the Oceania Renewable Power Summit as a new two-day conference and exhibition focusing on the renewable electricity generation sector across Oceania.

The Summit will be held in Auckland on the 18th and 19th of September at Aotea Centre in Auckland and will attract speakers, sponsors and delegates from New Zealand, Australia and the South Pacific.

We would like to invite you to be a part of the Advisory Panel for the Summit to provide expert insight to develop an engaging and relevant agenda.

Four key themes have been identified and we will be using this as the basis of the Summit programme and Advisory Panel meeting. These are; **construction; market integration; financing; asset management.**

The Advisory Panel meeting is taking place on **Tuesday, 10th October from 3.00pm - 5.00pm NZT**. We will be holding this meeting on Microsoft Teams.

Freeman and Brightstar would be delighted if you would accept this role as a key contributor to the inaugural Oceania Renewable Power Summit and we look forward to hopefully confirming your participation.

Nga mihi nui,
Paula
